**A few serious remarks:**

- This meeting and workshop are to make sure that our debating year starts on a good footing.
- It is important that you **attend, arrive on time and stay till the end.**
- The tournament strives to be a prestige event on the Polokwane calendar and we are therefore taking all measures to apply effective administration and encourage full co-operation.
- Performance rules and dates that will be agreed on at the workshop will be applied without exception – it is therefore crucial that you are there to make input from your situation.

The Polokwane Debating Society started as a community effort. The Polokwane Municipal Libraries adopted it as a project with full community involvement. In reality, every year those schools who register are the Debating Society:

- What we do together is what the Society is doing, let us do it with due responsibility and pride. Effective organising can only succeed with dedicated participation.
- We are all doing this for the learners who are so eagerly involved; they sacrifice leisure time, dare to expose themselves, enjoy the limelight and have to take the beating when necessary. We get wonderful feedback from debaters, even years after they have left school. Let us, this year, join forces to create a well organised, properly executed, intellectually challenging tournament worthy of those learners who intuitively trust us to do just that.

Looking forward to a great debating year.
